REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The Korean Office action dated February 27, 2006 states that claims 1 and 5 are rendered obvious, based on Japanese Patent Registration Publication 02057504 and Japanese Patent Open Publication Hei 04-138,498. However, neither of these references discloses a database relating to a minimum angle of an inlet guide vane, nor renewal of the database upon surging. The statement in the Korean Office action that renewal of the database upon detection of surging with data fitted for new conditions depending on the detected data can be applied by a person skilled in the art in the event it becomes necessary, involves hindsight, and is not obvious in light of the above references.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Christopher Verdier whose telephone number is (571) 272-4824. The examiner can normally be reached on Monday-Friday from 10:00-6:30.
